

Room At the Top

Pages

You have got the eyes of a dreamer
An underachiever
A lonely one
You with the case of the financial fever
You face disbelievers
What have you done
I can see through the song and dance
And I will be the one who takes a chance
You can get what you want when you need it
With someone to feed it
And fill you in
I will play the game
But the rules won't be the same
If there's room at the top
I wanna be there
If there's a space call me up - yeah
Any way you want it
I'm ready to surrender
'Cause ever since I was a boy
They've been tellin' me
There's room at the top
And I'm gonna be there
I'll give it all I got - yeah
Movin' on up
I'm movin' on up
Ever since I was a boy
They've been tellin' me
That there's room at the top
Pull out the stops
Out on the edge of the balance of power
I watch by the hour
The way of the world
Pull and shove, exchange and devour
It has to grow sour
This endless lure
I can see through the song and dance
I will be the one who takes a chance
