

# All Over You

## Grace Potter & The Nocturnals

See your face on the street  
Lay my head on empty sheets  
If only I could tell you how hard  
It is to keep a hold of my heart  
I watch the rain coming down  
    Making love to the ground  
    If only I could be like the rain  
    I'd cover you again and again  
I keep on telling myself I'm not falling all over, all over  
But my love is water, and I wanna rain all over, all over you  
    Your so cruel, when you smile  
    You keep me waiting all the while  
    If only you'd stop leading me on  
    Then you'd see that it's been raining all along  
I keep on telling myself I'm not falling all over, all over  
But my love is water, and I wanna rain all over, all over you  
    Stop kicking me around  
    Stop messing with my heart  
Stop running from the lightning, and the thunder, and the dark  
    Take a minute baby, I'm tryna tell you something  
    Stop and listen to the sound of your heartbeat  
    Can you hear it?  
Whoa, whoa, whoa I keep on telling myself, I'm not falling all over, all over  
    But my love is water, and I wanna rain all over, all over  
    I creep, i quiver, I cry, I shiver all over, all over  
And if love is water, then babe, I'm gonna rain all over you  
    All over you
