

Wind It Up

Wind It Up

High on the hill with the lonely goatherd

 Layee odelayee odelay heehoo

Yodel back with the girl and goatherd

 Layee odelayee odeloh

 Wind it up!

 Wind it up!

 Wind it up!

Yodelay yodelay yodeloh

 (Yeah)

 This is the key that makes us wind up

When the beat comes on the girls all line up

 And the boys all look but no they can't touch

 But the girls want to know why boys like us so much

They like the way we dance, they like the way we work

They like the way the L.A.M.B. is going ?cross my shirt

 They like the way my pants, it compliments my shape

 (She's crazy, right?)

 They like the way we react every time we hear the

 Every time the bass bang realize it calls your name

 Let the beat wind you up and don't stop till your time is up

 Get in line now

 Wind it up!

 Wind it up!

 (Come on)

 Wind it up!

Yodelay yodelay yodeloh

 You got to let the beat get under your skin

 You got to open up and let it all in

 But see, once it gets in, the popping begins

 Then you'll find out why all the boys stare

See? They're trying to bite our style, trying to study our approach

 They like the way we do it, so original

 I guess that they are slow, so they should leave the room

 This beat is for the clubs and cars that go

 Every time the bass bang realize it calls your name

 Let the beat wind you up and don't stop till your time is up

 Get in line now

 Wind it up!

 (Whenever you're ready)

Wind it up!
Wind it up!
Wind it up!
Yodelay yodelay yodeloh
Uh huh, this is your moment
Uh huh, come on girl, you know you own it
Uh huh, you know your key is still tick tockin'
Hell yeah, but you know they're watchin'
Get it girl, get it, get it girl
Get it girl, get it, get it girl
To the front, to the side
To the back but don't let him ride
Keep goin' girl, it's your night
Don't let him steal your light
I know he thinks you're fine and stuff
But does he know how to wind you up?
(Come on)
Wind it up!
Wind it up!
Wind it up!
Wind it up!
Yodelay yodelay yodelay, hey
