

Remember (IOU)

Big Dismal

When I was a young child
You watched over me
You kept me safe inside your arms
And then you set me freeSo I flew away like a bird
Not knowing which way to go
The light you give me inside
It will always glowAnd I want to remember
All the times we shared
And I won't ever forget your face
You know your hands were always thereAnd still you're strong when I'm weak
It never seems to fade
I can hear your voice here with me
Whenever I'm awakeAnd I know you'll be there 'til the end
Until the end of time
Because you sacrificed it all
Just to give me lifeAnd I want to remember
All the times we shared
And I won't ever forget your face
You know your hands were always there
You made me the man I am
The man I am today
And for that I owe you everythingIt's been so long, I can't go on
Without you by my side
