

# Captain Badass

## Songs: Ohia

Departure and worry  
And worry, and worry  
Still shake me  
Resistance failed

Resistance failed  
And friendship failed  
And friendship failed  
As lovers we did not fail

As lovers we did not fail  
Brown eyes your pulse is getting hotter  
Brown eyes your pulse is getting quicker  
Quote Captain Badass,

"I am setting your heart on fire  
So when you leave me  
I will burn on in your soul"  
You won't have to think twice

If it's love you will know  
We get no second chance in this life  
We get no second chance in this life  
So a hot pulse is alright

So a quick pulse is alright  
So a hot kiss is alright  
So a long kiss is alright  
So a long night is alright

And all night is alright  
There ain't no contest  
Against the final day  
We'll rise above us either way

We're either greeted  
By life or it's reverse  
Then each day greeted  
By fortune or it's reverse

Will you stand up for your one chance  
Will you stand up for love  
We get no second chance in this life  
We get no second chance in this life

You won't have to think twice if it's love  
You will know
