

Well Enough Alone

[Chevelle](#)

Walk down the realm
Hint to no one that this
Generic bond exists
Evil shows another side And like before, makes no sense
Never coming, always leaving
Right before
Hooked on substance,
Digging deeper
Can't reveal Why we leave
Well enough alone
Never thought about the shame So fed up,
What's with the scenes?
Observe and leave instead
This pity wagon
Penetrates my skin
So sensitive, it makes me sick And like before, makes no sense
Never coming, always leaving
Right before
Hooked on substance,
Digging deeper
Can't reveal Why we leave
Well enough alone
Never thought about the shame The old and the aged
Pulled and never knew what hit
The old and the aged
Pulled and never knew And like before, makes no sense
Never coming, always leaving
Right before
Hooked on substance,
Digging deeper
Can't reveal Why we leave
Well enough alone
Never thought about the shame Why we leave
Well enough alone
Never thought about the shame When you leave
When you leave
