

# Deep Rivers of Blood

## Carnal Forge

Your last day on earth, what do you do?  
you think about all the shit we put you thru,  
you say you don't care but I know that's not the deal,  
out with your rage I know how you feel  
Today is the day, your last day on earth  
Today is the day, the last day on earth  
They didn't see it coming, they couldn't read the signs  
they refused to hear the sound of doom  
judgment day is calling, we're all guilty as charged  
we will drown, in the deep rivers of blood  
It's time to act, stab wounds in their back,  
eye for an eye, time to die,  
time to pay they should have stayed away,  
denying their great loss, no regrets just one day left  
Today is the day, your last day on earth  
Today is the day, the last day on earth  
They didn't see it coming, they couldn't read the signs  
they refused to hear the sound of doom  
judgment day is calling, we're all guilty as charged  
we will drown, in the deep rivers of blood  
Your last day on earth, what do you do?  
you think about all the shit we put you thru,  
you say you don't care but I know that's not the deal,  
out with your rage I know how you feel  
Today is the day, your last day on earth  
Today is the day, the last day on earth  
They didn't see it coming, they couldn't read the signs  
they refused to hear the sound of doom  
judgment day is calling, we're all guilty as charged  
we will drown, in the deep rivers of blood
