Deep In Your Wake

Caroline's Spine

well i know your name
i call it out several times a day
you'll find me gone down deep in your wake
am i the only one out here?
cause i was unclear
when i said i had absolutly no idea
how it felt to go overboard
am i the only one out here waving my arms?
because i don't know just who you fell for
there must be others lying in vain
or am i the only one deep in your wake?and you seem so immune
use your gentle word to hide
you needed to consume
and what's left will go overboard
am i the only one out here waving my arms?
because i don't know just who you fell for
there must be others lying in vain
or am i the only one deep in your wake?am i the only one
never ever see you this old
never ever see
here i am...here i waving my arms
because i don't know just who you fell for
there must be others lying in vain
or am i the only one waving my arms?
because i don't know just who you fell for
there must be others lying in vain
or am i the only one deep in your wake
