

# Hero

## Queensryche

Looking for salvation, I'm blind  
Thought contamination, I'll find  
Greedy spiders talk to me in my head  
I think I'm driftingI'm in the big machine  
My next hero's calling

Who knows what he may bring to me?Government intrusion, again  
Cultural illusion, offends  
Grain of sand in traffic jam, and I'm late  
I think I'm driftingI'm in the big machine  
My next hero's calling

Who knows what she may bring to me?See the demons all around and sometimes  
I feel like one of them  
Feel the rage is building inside  
I walk to the final edge, I'm dreamingI'm in the big machine  
My next hero's calling  
Who knows what he may bring to me?
