

# Put a Girl In It

Brooks & Dunn

You can buy you a brand new truck  
Chrome it all out, jack it way up  
You can build you a house up high on a hill  
With a pool and a pond and a view to kill  
You can make all the money in sight  
But you ain't livin' a good life[Chorus]  
'Til you put a girl in it, you ain't got nothin'  
What's it all worth without a little lovin'  
Put a girl in it, some huggin' and some kissin'  
If your world's got somethin' missin'  
Just put a girl in it You can buy a boat and a shiny set of skis  
Have some fun in the sun, float around in the breeze  
You can lay out on a blanket by the lake  
Drink a cold beer, polish off another day  
Kick on back and watch the sky turn red  
A sunset ain't a sunset[Chorus] You can write you a country song  
The DJ won't put it on  
They won't dance or sing along[Chorus] If you're ridin' in your truck  
Put a girl in it  
If you're gonna have a party  
Put a girl in it  
If you wanna live the good life  
Better put a girl in it
