

It's Us Bitches

Black Buddafly

Ya know who it is

It's us bitches

Black Buddafly

Swizz Beats

We gon' switch it up a lil' bit You're like chilling in your beamer listening to me

Black Buddafly's here Swizz Beats got the beaters

Rocking non stopping we keep it coming won't stop

Then jump off this beat I'll make you come real hot Ya know who it is

It's us bitches It's about time y'all be hearing my name

They tried to bring me down but I still top my game

I'll be as hot as this week I'll bring you what you need

I point the gun to keep you listenin' to me (Hey)

Give me the microphone

I'm 'bout to get in the zone I got my outfit on

The one that makes the fellas stare from across the room

I may have some for you but can you work me out

Like I been working you It's us bitches

I'm 'bout to take over

Lemme and I'll show ya

We've got to make this time

Come on ain't that seem right Pulled coming thru

Give it how I do

The only question is am I good enough for you

Well you're hot in the clouds you might be hot in the streets

But can you make it to the top of our league (Believe me)

I'm done being consistently

I'm up with my ladies and we ain't gon' take no maybes

I'm on fire so won't you buy my drink

And have fun 'til tomorrow tell me what ya think (Oh woah oh oh) You're like chilling in your beamer listening to me

Black Buddafly's here Swizz Beats got the beaters

Rocking non stopping we keep it coming won't stop

Then jump off this beat I'll make you come real hot I'm 'bout to take over

Lemme and I'll show ya

We've got to make this time

Come on ain't that seem right
