Everything In The World

Professional Murder Music

How could I love this place you've made?
Feel so empty I'm layin' on my back
Far beneath I'm havin' trouble seein'
What's left now
And I need you more than anythin'
Just to see there's nothin' in this place
Can't remember how it used to seem
Without youAnd I don't like feelin' this way again
And I don't like livin' this way again
No I don't need you sayin' those things to me
So I want everything in the worldAlways knew I could not tell you no
Even when it kills a part of me
I start to see that anythin' that's real
Is forever
Does it seem so perfect in this light
Only words I hear to think it's right
As you smile I can almost see
It's overAnd I don't like feelin' this way again
And I don't like livin' this way again
No I don't need you sayin' those things to me
So I want everything in the worldHow could I love this place you've made
Feel so empty I'm layin' on my back
Far beneath I'm havin' trouble seein'
What's left now
And I need you more than anythin'
Just to see there's nothin' in this place
Can't remember how it used to seem
Without youAnd I don't like feelin' this way again
And I don't like livin' this way again
No I don't need you sayin' those things to me
So I want everything in the world
