Becky From The Block

Becky G

I won?t stop till I get to the top
I?m so I?m so Becky from the block
Always had a little, but I want a lot
No matter where I go I know where I came from
I won?t stop till I get to the top
I?m so I?m so Becky from the block
Always had a little, but I want a lot
No matter where I go I know where I came from
Yo, first grade, Oak school elementary
A few blocks from the Englewood cemetery
I lived through hard times, according to my memory
Then I learned to run like I?m reading up the dictionary
I still walk to the Kelso Market
Even though I get to walk them red carpets
My family lived in my grampa?s garage
So I started working just to help out my pops
It all started when my grampa crossed over
Now one day I might be a crossover
Right now it?s just who is that girl?
But one day Ima be all around the world
I still get grounded, always stay grounded
Still do chores even when I?m on tour
One thing?s for sure, Ima always be me
That what?s up? Becky, Becky G
I won?t stop till I get to the top
I?m so I?m so Becky from the block
Always had a little, but I want a lot
No matter where I go I know where I came from
I won?t stop till I get to the top
I?m so I?m so Becky from the block
Always had a little, but I want a lot
No matter where I go I know where I came from

Yo what you know about the in and out lines
And what you know about that 4
