

# When the Angels Sing

## No Angels

And when the angels sing  
I want you by my side  
I don't care how long I've been waiting for my baby  
And when the angels bring  
You back here in my life  
Then I know it's true  
That I love you I was so blind  
I was so wrong  
The day we met it never leaves my mind  
I thought you play some foolish game  
But now my heart tells me I was wrong And when you come around I let you inside  
Cause I'm ready I can't wait anymore And when the angels sing  
I want you by my side  
I don't care how long I've been waiting for my baby  
And when the angels bring  
You back here in my life  
Then I know it's true  
That I love you Each night I pray that you'll come back  
I can't deny what I feel inside  
The music plays one special song  
The words that they say I hope can bring you home And when you come around I let you inside  
Cause I'm ready I can't wait anymore And when the angels sing  
I want you by my side  
I don't care how long I've been waiting for my baby  
And when the angels bring  
You back here in my life  
Then I know it's true  
That I love you I know I've cried so many times  
I know I've said things I was running away  
I was wrong And when the angels sing  
I want you by my side  
I don't care how long I've been waiting for my baby And when the angels sing  
I want you by my side  
I don't care how long I've been waiting for my baby  
And when the angels bring  
You back here in my life  
Then I know it's true  
That I love you And when the angels sing  
I want you by my side

I don't care how long I've been waiting for my baby  
And when the angels bring  
You back here in my life  
Then I know it's true  
That I love you
