

Transformations (feat. Laura Brehm)

Rameses B

The world I see is beautiful
The wonder takes my breath away
Nothing surrounding us will stay the same
And when I look into my soul
I feel something's about to change
It's growing stronger and it's taking a holdI'm trying to find my way
I'm trying to find my way(Drive to reinvent my life
Bring me to the blue sky)You were born
You were born
Yeah you were born to fly
You were born
You were born
Yeah you were born(Drive to reinvent my life
Bring me to the blue sky)I am awake
The lucid memories escape from my imagination
They sail away
A distant voice is telling me to let go of what's brokenJust let it...Just let it...Just let it sink into the floors of my
yesterday
I will be floating aboveYou were born
You were born
Yeah you were born to fly
You were born
You were born
Yeah you were born
