The Ruts

Elastic words of wisdom
Conceal a tolerant sigh
A professional smile hides a barefaced lie
Your promises are merely wiles
Scared people behind cardboard smiles
You're a big happy family with style, wit and looks
But the man that makes decisions is the man that
keeps the books

No trust just doubt
No truth ha ha ha ha
Make money false smiles
You take more more more more

Sign, sign - we don't mind
You're nothing more than a pimp -
...a faceless business mind
If you're the pimp than we're the whores
The smallprint clipped our wings
With documents like music scores
Just add a few more strings

No trust just doubt
No truth ha ha ha ha
Make money false smiles
You take more more more more
Exploit, expose
Sell more ha ha ha ha
You want we make
You take more more more more
