

## The Ruts

Elastic words of wisdom  
Conceal a tolerant sigh  
A professional smile hides a barefaced lie  
Your promises are merely wiles  
Scared people behind cardboard smiles  
You're a big happy family with style, wit and looks  
But the man that makes decisions is the man that  
keeps the books

No trust just doubt  
No truth ha ha ha ha  
Make money false smiles  
You take more more more more

Sign, sign - we don't mind  
You're nothing more than a pimp -  
...a faceless business mind  
If you're the pimp than we're the whores  
The smallprint clipped our wings  
With documents like music scores  
Just add a few more strings

No trust just doubt  
No truth ha ha ha ha  
Make money false smiles  
You take more more more more  
Exploit, expose  
Sell more ha ha ha ha  
You want we make  
You take more more more more
