

Created A Monster

Jayden

Advisory - the following lyrics contain explicit language:

i used to be a good guy
i used to hold you down
i can barely stand what i see in the mirror right now
i used to listen i used to understand
now i dont hear you and i dont give a damn
that im out here acting crazy
take a look at what you made me
and every time you broke me i changed
just a little more
and slowly i transformed
somehow i learned to act just like youim getting closer to the edge
and im about to fall
cause of you i dont remember who i am
even i dont wanna be who you made mecreated a monsterits scary to realize what i become
i swear that it wont happen again
when everybody told me a girl can change you
whyd you have to be the one
i dont wana hurt just like you
no i dont do dirt just like you
couldve been a good guy
im telling you it really is a shame
and ths all for the worse
and this i keep thinking to myself
ill be a better man if i never let you inim getting closer to the edge
and im about to fall
cause of you i dont remember who i am
even i dont wanna be who you made mecreated a monster
take a good look at what you made mewhats wrong? do you not like what you see
took so much time tryna change me
now you dont wanna be wit me
how do i get back to how i used to be
way before you did your damage

and i hate waken up seeing what i become
and i know that the fist step is just to leaveetake a good look at what you made mee
created a monster
