Losing All Control

Tevin Campbell

I'm losing you, I'm losing all control
Just let me be, let me be alone for now
I wanna be alone tonight
Once again we've gone off track
And lost all hope for coming back
It's time to restart and then
Try all over again
It's time to work, the work is useless now
Oh can't you see your help is lost in me?
I wanna be alone tonight
Once again we've gone off track

And lost all hope for coming back
And it's time to restart and then
Try all over, yeah try all over
We've lost all hope for coming back
We've lost all hope for coming back
We've lost all hope for coming back
Lost all hope for coming back
Once again we've gone off track
And lost all hope for coming back
It's time to restart and then
Try all over again
