

# Just The Way You Are

Harry Connick, Jr.

    dont go changing,to try to please me  
        never let me down before  
    dont imagian, your too familar and i dont see you anymore  
    i wouldnt leave you in the time of trouble we never could never come this far  
    itook the good times and ill take the bad times ill take u just the way you are  
        dont go tryin...some new fashion  
        dont change the color of the hair  
    you always have my unspoken passion although i might not seem to care  
        i dont want clever convertaion  
            no  
        i never want to work that hard  
    i just want some one that i can talk to  
        i want you just the way you are..  
    i need to know u will always be....the same old someone that i new..  
    what will it take till u belive in me the way that i belive in you...  
        said, i love you  
        and thats forever  
            oh alright  
    yes i promise from the heart  
        ..uhhmm  
        i could not love you any better  
    i love you just the way u are, i love...you...just...the way you are!
