

Woman and Man

[Scout Niblett](#)

Once there was one
Once there was only one
A foot, a hand, a tongue
Talking to no one and no one made nothing
To ease the balance it split in two
The older line became creation
And we saw bodies forming
From rib and from monkey
Half became the whole
A race of man and woman
Woman and man
Woman and man working together
I can show you, teach you something
If you listen, man and woman
Woman and man working together
Ocean and land
Ocean is land covered with water
I can tell you in my answer
If you listen, man and woman
Ocean is land covered with water
Killing for life
Life is a fight, let's fight it together
I can teach you, teach you something
If you listen, man and woman
Life is a fight, let's fight it together
