

# Sinking

## Econoline Crush

Slash and burn  
It comes all the way around and back again  
Insensitive  
Could have been a little more than faking it  
Stunning move to make amends  
You got what you want You got what you need  
You've got everything but me Here comes the pay-off  
What are you made of  
You're empty  
You're hollow  
You're sinking fast (2x)  
Cut and paste I don't know who you are now or where you've been  
Thought I knew everything  
To move the men  
Deception  
Should have seen that guilty look You got what you want  
You got what you need  
You've got everything but me Here comes the pay-off  
What are you made of  
You're hollow  
You're empty  
Sinking fast...  
You're sinking fast (2x) You're sinking fast  
You're sinking fast  
Sinking fast  
You're sinking fast  
You're sinking... (fast) Here comes the pay-off  
What are you made of  
You're hollow  
You're empty  
You're sinking fast (2x)  
(Here comes the pay-off) What are you made of (Here comes the pay-off) Here comes the pay-off  
You're empty  
You're sinking fast (2x) You're hollow
