

# Stuck in the Past

Aimee Mann

Stuck in the past  
Like drawing rings around Saturn  
The shadow is cast  
But now it follows a pattern I don't know what that arrangement was  
I could never tell  
But you could  
I had hopes, but the hopes all fell  
Leveled with the smell  
Of new wood Stuck in the past  
I plan it only on paper  
Guess I'm the last  
A living memory of vapor I don't know what that arrangement was  
I could never tell  
Like you could  
I had hopes, but that's just because  
Hoping was a well  
Where you stood I had all this time while Houston dozed  
Where I almost had a line composed  
But the moment passed, the hatch is closed Stuck in the past  
Where I'll be pulling that lever  
It happened so fast  
And then it happens forever I don't know what that arrangement was  
I could never tell  
Like you could Stuck in the past  
Just drawing rings around Saturn
