

Napoleon Says

Phoenix

You know your French well
Didn't take any decision so far
Hit me like a freight train
Please consider my request
You do expect a Messiah
You want to be European
See I would be your Bonaparte
Don't ever care 'bout what Napoleon says
Well, look out, look at, look at me
Calm down, calm down, I said to myself this time
Look at what you look like
You know it suits you well
Napoleon says to take off your coat
Take off your long johns too
Napoleon says to take off your coat
Take off your long johns too
Look out, look at, look at me
Calm down, calm down, I said to myself this time
Look at what you look like
You know it suits you well
Right hand in a trench coat
Right hand in a trench coat
Right hand in a trench coat
Right hand in a trench coat
Napoleon says to come over here
Bring back your long johns too
Napoleon says to come over here
Bring back your long johns too
Look out, look at, look at me
Calm down, calm down, I said to myself this time
Look at what you look like
You know it suits you well
Right hand in a trench coat
Right hand in a trench coat
I said, right hand in a trench coat
Right hand in a trench coat
Look out, look out, look out
Don't get yourself excited
Calm down, calm down, calm down

Go get yourself a white horse
Right hand in a trench coat
I said, right hand in a trench coat
Right hand in a trench coat
Right hand in a trench coat
