

Still Believe

All Ends

I need to leave it all behind
Cause straight ahead with open eyes
Surround myself with all the love.. i deserve

I tried to help you understand
You need to breathe again
Don't let me down

(chorus)
Now i'm standing here
I know what's right
I see that you still believe
Oh it's been hard
Won't hide no more
I always will believe

I tried to find my strength again
I remember the days i'm gratefull for
I never turned my back
I won't give up

You know i'm always by your side
Whereever you will go
I'm right behind

- chorus

I never thought i would feel the same
Just feel my trust
And i show you the way

-chorus
