(You Gotta Walk And) Don't Look Back

Peter Tosh

If it's love that you're running from
There is no hiding place
Just your problems, no one else's problems
You just have to faceIf you just put your hand in mine
We're gonna leave all our troubles behind
Gonna walk and don't look back
Gonna walk and don't look backNow if your first lover let you down
There's something that can be done
Don't kill your faith in love
Remembering what's becomePlaces behind you, there to remind youNow if your first lover let you down
There's something that can be done
Gonna heal your faith in love
Remembering what's been doneNow if your first lover let you down
There's something that can be done
Gonna heal your faith in love
Remembering what's been doneHow far you been walkin' now about hundred miles
You still got some more to walk
I know, I got a little more to goI'm gettin' kind of tired but I got to keep on walkin'
I'm walkin' barefoot
You've got to walk and don't look back
