Take the Long Way Home

John Schneider

Take the long way home
She won't wait up tonight
I can take the long way home
And there won't be any fightTonight, I can stay out late with the boys
Play cards and come in at dawn
Since she left me I've got a choice
I can take the long way homeNo pictures on the wall
No carpet on the floor
No-one ever calls
No-one knocks on my doorIt's just a place where I sleep at night
But I can't sleep alone
Think I'll stop off and have a bite
And take the long way homeWhat makes a house a home
Is sometimes hard to say
You never know all the riches you own
Someone takes them away, ohThe night is clear and my work is through
It's a shame to be alone
Think I'll go have a beer or two
I'll take the long way home
I'll just take the long way home
