

Shake That

Scooter

Alright crew
I am a junglist man
Don't try to change my plan
Right

Flip that coin, see what you get
It's MC Dave, who's on the set
Left, right, left, right
Push up the mic

Four, three stand at ease
Turning forty five degrees
I'm doing it for the massive
I'm doing it for the crew

Going to make you hop and skip around
Like a kangaroo
Get em, get em
When I'm on the mic

When I'm on the mic I rinse out rhythm
Get em, get em
When I'm on the mic
Bring the beat back

Shake that !
Right
We love you lots, ten outta ten
Selector gimme that, a mix and blend

Left, right, left, right
I got the vibe
Four, three come on please
Turning there like killer bees

I'm doing it for the massive
I'm doing it fast or slow
When I'm in charge of the microphone
Watch out I'm about to blow

Get em,get em
When I'm on the mic
Time to inject
Shake that !

Right
I never say no to return to the floor,
Your raw
Want to test my crew

You better be sure
Here we come straight between the eyes
Life without knowledge is death in disguise
Shake that !

Come on
Shake your booty now !
Right
