

# It Comes Naturally

## I Set My Friends On Fire

I know exactly why you're wearing that dress  
It's about time you chose that easy, sleazy access  
A hit and run, a rip and dip  
A mild stare, a slow sip  
Coronal mass infections and lizard-like whores  
Are actually what killed all of the dinosaurs  
This late baking news makes your head spin like an owl  
Bleeding from all vessels you should grab yourself a towel

Scratch you of my list  
I've been meaning to just like an itch  
I was stoned to death  
When I took your last breath just like a witch  
I'm bigger than you  
And I'm way bigger than him too  
Get ready for the big debut  
Cumming is one of my favorite things to do

Whenever we talk  
You're a deer in the road and my lips are sealed  
You constantly surprise me  
But I have to move swiftly before you smash that windshield  
I'm always the one to bring us back  
Affectionate...  
Souvenir from a foreign perilous municipality  
To something less insecure and severe

Scratch you of my list  
I've been meaning to just like an itch  
I was stoned to death  
When I took your last breath just like a witch  
I'm bigger than you  
And I'm way bigger than him too  
Get ready for the big debut  
Cumming is one of my favorite things to do

Decagon czarina  
I heard you collapse behind the lavatory stall  
Consuming anything that pokes it's head in and out the wall  
You've got time continuum tears

Running down the side of your cheek  
Asphyxiating for eons leaves no time for us to speak

Scratch you of my list  
I've been meaning to just like an itch  
I was stoned to death  
When I took your last breath just like a witch  
I'm bigger than you  
And I'm way bigger than him too  
Get ready for the big debut  
Cumming is one of my favorite things to do
