Afraid

David Bowie

I wish I was smarter
I got so lost on the shore
I wish I was taller
Things really matter to meBut I put my face in tomorrow
I believe we're not alone
I believe in Beatles
I believe my little soul has grownAnd I'm still so afraid
Yes, I'm still so afraid
Yeah, I'm still so afraid
On my own, on my ownWhat made my life so wonderful?
What made me feel so bad?
I used to wake up the ocean
I used to walk on cloudsIf I put faith in medication
If I can smile a crooked smile
If I can talk on television
If I can walk an empty mileThen I won't feel afraid
No, I won't feel afraid
I won't feel, feel afraid
AnymoreAnymore
(And then I just won't be afraid)
Anymore
(And then I just won't be afraid)
