Train Song

Bourgeois Gypsies

I've been listening
For tose metal wheels
To come scraping across that
Old rusty track
And I'm just wondering, I need to ask
Is my sweet man on that train
And I've been waiting
For the whistle to sound
Like a ghost on the highland
Howling proud
And I'm just wondering, I'll ask again
Is my sweet man coming back
Everything inside me
Is aching for you now
Every minute given
I'm just waiting for your love
I'm just wondering, I need to ask

Is my sweet man on his way
And I've been crying
Trying to make sense
Of all this shit
He left me to tend
And I'm just wondering, I'll ask again
Is my sweet man on that train
Everything inside me
Is aching for you now
Every minute given
I'm just waiting for your love
I'm just wondering, I need to ask
Is my sweet man on that train
I'm just wondering, I need to ask
Is my sweet man on that train
