

# Willing (Interlude)

[Jill Scott](#)

You want me flawless  
You want me patient and sweet  
You want me willing  
You want my honesty  
You want me to be  
Appreciative  
Respect your space  
Ignore your fears  
You want spontaneity  
A good girl and a freak  
You want loyalty You want something that you're not, willing  
To be  
You want something that you're not, willing  
To be Expecting me to be loyal  
Expecting me to be faithful You want something that you're not, willing  
To be
