

Tribute

John Newman

My tribute[Chorus]

It's all for you, it's all for you

For what you have shown me

It's all for you, it's all for you

For what you have made me

It's all for you, it's all for you

For what you have shown me

It's all for you, it's all for you

For what you have made me

Here's my tribute¹⁵, I had known to be

So confused, broken easily

Now I could not be off the memory but you're next to me¹⁸, you made me see

You lit the lights I've been dampening

Now I could not be off the memory but you're next to meMy passion was abused, my words were never used

But now I hope that you can seeThat it's all for you, it's all for you

For what you have shown me and what you do

It's all for you, it's all for you

For what you have made me, look how I grew

Here's my tribute²³, now I'm taken in

This vicious whirl I was captured in

Now I could not be off the memory but you're next to meMy passion was abused, my words were never used

But now I hope that you can seeThat it's all for you, it's all for you

For what you have shown me and what you do

It's all for you, it's all for you

For what you have made me, look how I grew

It's all for you, it's all for you

For what you have shown me and what you do

It's all for you, it's all for you

For what you have made me, look how I grew

Here's my tributeIt's my tribute!

My tribute! Oh no!This life I've been brought

Life I've been leading

It's my life, it's my tribute

This life I've been brought

Life I've been leading

It's my life, it's my tributeAnd it's all for you, it's all for you

For what you have shown me and what you doIt's all for you, it's all for you

For what you have shown me and what you do

It's all for you, it's all for you

For what you have made me, look how I grew
It's all for you, it's all for you
For what you have shown me and what you do
It's all for you, it's all for you
For what you have made me, look how I grew
Here's my tribute
