we gotta just take our time

hush, girl just hush,

crush, on you, crushin you tonite.

warren g verse 1:

every now and then i feel a little about it,

the VIP get a little crowded,

you should see the piece with the diamonds inside it

its so vibrant, platinum all around it

when i take flight, how can i stay grounded

got the 2 6 pep boys been around it

shawty wanna shake the spot like right now

5 cut a cranberry saturn right now

mama got back, pretty little thang

kicked in the door with bullied out the game

PYT, pretty young thang

i told her cross over stop messin with the lames

switchin 4 lanes like money aint a thang

i got on 4 chains like money aint a thang

yeah girl this is us tonight

take her back to the crib we gon crush tonight

right?

ray j chorus:
