A

A

Hey, we're gonna be around
Hey, we're gonna work it out
Hey, there's nothing to fight about
Today we're gonna be around
You hardly know me, you say I'm your best friend
Everything's ace, it'll work out in the end
Say that you love us, I don't believe that you want me to stay
You're hoping I'll go away
Hey, I'm gonna be around
Hey, I'm gonna work it out
Hey, there's plenty to fight about
No way, I'm ever going down
You hardly know me, you say I'm your best friend
Everything's ace, it'll work out in the end
Say that you love us, I don't believe that you want me to stay
You're hoping I'll go away
You follow me here, follow me there
You mess me around like you think that I care
You think that I need you, you think that you know me
You can tell me all the things you want to say
'Cause I'll get better anyway
Follow me here, follow me there
Mess me around like you think that I care
Follow me here, follow me there
Mess me around like you think that I care
Follow me here, follow me there
Mess me around like you think that I care
You think that I need you, think that you own me
Don't think I see ya, don't think you know me
Follow me here, follow me there
Mess me around like you think that I care
Hey, I'm gonna be around
Hey, I'm gonna work it out
Hey, there's plenty to fight about
Today were gonna be around
Hey
