

# I'm Good

[Trip Lee](#)

(Feat. Lecrae)

I hear the drummers coming for me death is at my doorway  
Fear says Imma perish but that ain't what my Lord say  
He said I ain't guilty though I still ain't have my court date  
Tasted and I've seen even though it's just a forte  
I don't know what they feeling I don't know what they thinking  
But my soul's invincible like Mario when he blinking  
They see me full of joy like "I don't know what he drinking?"  
Cup is full of living water bro I sip it and thank Him  
Yessir may not win grammy or get another stellar  
But I get rewards from my Lord there ain't nothing better  
I may not jot again I may not sell a milli  
But I've been purchased by my king He's forever with me  
So what they talking bout no they can't knock me down  
Yessir I do feel pain but Jesus got me now  
That's why I'm making noise that's why I'm running hard  
That's why I go gorilla spitting monkey bars

Partner now you know I'm good to go  
Pressure creates diamonds and fire refines the gold  
Ain't nothing on this planet that satisfies my soul  
I'm living for tomorrow today is out of control for sho  
I'm good take all my money  
I'm good here come the pain  
I'm good ya they can kill me  
I'm good to die is gain  
I'm good I ain't insane yet we don't feel any pain  
I'm the same you can't take us out the game  
Cause homie we good

I done been through the fire I survived all the floods  
And them writers is with me they all covered in blood  
Drag my name through the mud they can hate they can gossip  
But my passion for Jesus they ain't never go'n stop me  
I was dead I guess that made me better than I ever was  
Look at me I'm good partner I'm on my forever buzz  
If everything I have is taken I can take it  
They say I never make it I know the person who made it

My life is hidden in Him so when I die I gain  
And Jesus really be walking with me so how I'm lame?  
My life is full of pain problems and such  
But I'm focused on forever in eternity's touch  
While the world try to fight me Pharisees try to stone me  
I am Tebow in the fourth quarter they can't hold me  
Ya the Lord is my coach got me off in the zone  
Tell my mama that I'm good when he carry me home

Partner now you know I'm good to go  
Pressure creates diamonds and fire refines the gold  
Ain't nothing on this planet that satisfies my soul  
I'm living for tomorrow today is out of control for sho  
I'm good take all my money  
I'm good here come the pain  
I'm good ya they can kill me  
I'm good to die is gain  
I'm good I ain't insane yet we don't feel any pain  
I'm the same you can't take us out the game  
Cause homie we good

Hey man we been beat down we been persecuted beat down and mocked but that ain't go'n stop us. No sir. We good. We know where our eternal resting place is at! Hey trip talk to em man.

I know that Imma suffer that will only make me tougher  
Death is just a doorway to take me to my faithful lover  
The lover of my soul is with me you can save me brother  
But you can never knock me down and take me under bring the thunder  
Let the storms come to hunt us and hurt us  
They can't take our Lord from us bro we got us a verdict Not Guilty  
He's with us and He stays present He never leaves me  
He even gives me stage presence

Partner now you know I'm good to go  
Pressure creates diamonds and fire refines the gold  
Ain't nothing on this planet that satisfies my soul  
I'm living for tomorrow today is out of control for sho  
I'm good take all my money  
I'm good here come the pain  
I'm good ya they can kill me  
I'm good to die is gain  
I'm good I ain't insane yet we don't feel any pain  
I'm the same you can't take us out the game  
Cause homie we good!!!!
