

# Victory Over the Sun

Biffy Clyro

Trees will speak before you listen  
Oh my god, no-one knows that  
we can barely stand each other  
It's not right, no it's not fair  
Cause I'd wait anywhere for you  
Would you wait for me?  
Bleeding tears is the least of our problems here  
We can moan our family's gone, blistered feelings  
All we have's diseased organs  
And I'd die anytime for you  
Would you die for me?  
Keep digging for the rest of your days  
Say something please it's time to pay  
Smoke crack for me, read jack for me,  
At this time I'd let you spit in my face  
I can only make you see the moon,  
You can touch it but that's up to you  
This is happening because of you  
Stay special brother you stay true  
We can change the world despite all our enemies  
We're fighting on, listen to your heart and sing  
Pray for love, it feels like a memory  
If we hold on, there's a victory over the sun  
Collapse in front of all of your peers  
Stop bleeding, keep blocking your ears  
Eating babies, drinking black brandy,  
Squinting all night through your demonic haze
