

# Fast Road

## Great White

Leavin' here on a goodbye road  
Been holdin' on for too long  
One way out still open to me  
Just be a rock rolling stoned City lights, summer nights  
The modern day call of the wild  
Faces come, the faces go  
All looking for someone to be I don't mind, I do fine  
There's nowhere that I'd rather be It's a mainline  
Fast road to nowhere Don't you cry, baby don't ask why  
And what does this all mean to me  
Sometimes it just seems to be  
We all have need to break free I don't mind, I do fine  
There's nowhere that I'd rather be On a mainline  
Fast road to nowhere  
A straight line  
Fast road to nowhere Take me along for the ride  
No return, no return  
There's fire in your eyes  
And fire in the heat of the night [Incomprehensible]  
Nowhere that I'd rather be On a mainline  
Fast road to nowhere  
Just a straight line  
The fast road to nowhere A straight line  
Fast road to nowhere  
A straight line  
Fast road to nowhere
