Darker

Doves

Bad snow freeze my throat
And numbs my soul
Eats me whole to pick me up
That's where you know
Free to go
You call the Jones
Makes me old before I'm old
It's all you love
Deep inside I go, you love
The less I seem to know, you love
Bad snow numbs my throat
And leaves me dry, leaves me dry
Leaves me barely whole
Down to the wire
Rock gone cold
You caught a cold
Like so many times
Before it's all you love
Deep inside I go, you love
The less I seem to know, you love
Here now, deep inside I go
Here now
