North Side Star

Mastodon

North side star's coming on down
[?] really gonna be around for you
Around for you
West side is coming on down
[?] really gonna be around for you
Around for youThe countdown's begun
The world is [?]
Where are we now?
And what have we done?
And how will I know?
That you are the one
It's getting cold outside
[?] really gonna be around for you
Around for you
North star has fallen to the ground
It rolls back the eyes around you [?]
All around you [?]
West side is coming on down
[?] really gonna be around for you
Around for youThe countdown's begun
The world is [?]
Where are we now?
And what have we done?
And how will I know?
That you are the one
You and I
We could expire
Right here and now
Wouldn't matter at allI can't clean this blood off my hands
I can't get the stains out, I tried
But maybe if we look ahead
We can clear this wreck to the sideYou and I
We could expire
Right here and now
Wouldn't matter at allThe world starts beginning to slow
Rust and bone come up from the ground
Come here and disguise me as love[?]
Death has been shattered from sun[?]
