

# True Lies

## Mekong Delta

Hello, people, this is Jason back again on channel 5, here are the news:

Mr. President declared his mind for peace and admitted the Contra's  
support

..All we need is economical development!

A Congress member said: "He's wise..."

All I hear is lies (Guns for freedom)

But they're true lies

We are god damn manipulated

We are so guilty at their truth

It's our duty to be true to ourselves

They move the mountains, they force nature on it's knees

And they are your personal gods

Paper's patient, you can print the way you want it

Black on white - the reborn truth

There's danger in their speech, born from unholy greed

Their lies made them believe in it
