Everybody Move With It

Tammy Trent

If you've been set free
Everybody move with itNow that you are listenin', now that I've got your ear
I've got a little secret that you need to hear
I know some may be wonderin', what this thing is all about
The reason why we scream and shoutIt's alright, it's okay
To put your hands together and praise the Lord in this way
It's okay, it's alright
To lift your voice in this place and get down tonightIf you've been set free
You know you are free indeed
So come along with me
Everybody move with itCan you feel the beat
You know it's alright
The Spirit lives in you and me
So everybody move with itC'mon now, don't you just stand there
Look around, get off your feet
You know that God has been much too good
For you to sit there in your seatIt's so easy all you gotta do
Is take a chance and lift your hands
The next thing you know
You just start to danceIf you've been set free
You know you are free indeed
So come along with me
Everybody move with itCan you feel the beat
You know it's alright
The Spirit lives in you and me
So everybody move with itNow it's a different type of party when the factor is
Still standing in His presence like the cactus is
I practice this the Spirit's like the happiness
Radiating from award-winning actressesLord, I thank You for that fact that Your access is
Available without a cable or a satellite dish
I read a little book and the plot is this
A reconciled generation to the Rock we've missedCome along with me, everybody move with it
The Spirit's movin', don't you wait another minute
If you hesitate you just might miss it
Come with me, come with meCome along with me, everybody move with it
The Spirit's movin', don't you wait another minute
If you hesitate you just might miss it
Come with me, come with meIf you've been set free
You know you are free indeed

So come along with me
Everybody move with itCan you feel the beat
You know it's alright
The Spirit lives in you and me
So everybody move with itIf you've been set free
You know you are free indeed
So come along with me
Everybody move with itCan you feel the beat
You know it's alright
The Spirit lives in you and me
So everybody move with itCome along with me, everybody move with it
The Spirit's movin', don't you wait another minute
If you hesitate you just might miss it
Come with me, come with meCome along with me, everybody move with it
The Spirit's movin', don't you wait another minute
If you hesitate you just might miss it
Come with me, come with meCome along with me, everybody move with it
The Spirit's movin', don't you wait another minute
If you hesitate you just might miss it
Come with me, come with meCome along with me, everybody move with it
The Spirit's movin', don't you wait another minute
If you hesitate you just might miss it
Come with me, come with me
