

# Sugar

## The Horrible Crowes

I guess you need a little sugar  
Cause you always wander around  
How would you like a little fancy  
Whenever you feel a little inside out  
I heard you need a vacation  
Said I bored you right to tears  
I heard my love was a season  
That you wore for the pretty girls  
You said no  
That's not the way it goes  
You said no  
That's not the way it goes  
But it is, don't lie  
I've seen that curl up around your smile  
And it is, don't lie  
Who do you think that you're kidding this time  
Only I know, I know you get lonely at night  
I know, I know you get lonely sometimes  
I know, I know you get lonely at night  
Nobody knows you like I do  
I guess you need a little sugar  
Cause you never wait around  
I heard you like it to shiver  
It's like right up your spine  
I saw you walking with him  
Down the steps that I walked you in  
I got hurried for midnight  
With slippers of glass and perfect fits  
You said no  
That's not the way it goes  
You said no  
That's not the way it goes  
But it is, don't lie  
I've seen that curl up around your smile  
It is, don't lie  
Who do you think that you're kidding this time  
Only I know, I know you get lonely at night  
I know, I know you get lonely sometimes  
I know, I know you get lonely at night  
Nobody knows you like I do
