

Thousand Days of Yesterdays (Intro)

Captain Beyond

A thousand days of yesterdays
Time since come and gone
A thousand days of yesterdays
The road goes by so long Tomorrow comes like wind blown clouds
Animals loose on racing grounds
Space has just been lost and found, yeah! I said a soon
Gonna wake from sleepy eyes
And soon
Sun will light the tired sky Today is just as soon again
When I can see myself again
Where's the start, where's the end Days gone by never to return A thousand days of yesterdays
Time since come and gone
A thousand days of yesterdays
The road goes by so long The day is just as soon again
When I can see myself again
Where's the start, where's the end
