Action Cat

Gerard Way

We want television bodies that we can't keep
We have battles in the dark when she falls asleepWe can make it up again

We can make it up again

And we don't care we just pretend

With our faces on the mend

And don't ask a lot

And you won't lose a lot

Don't ask for muchEvery accidental damage I wouldn't take Every heart I left behind that you couldn't breakWe can make it up again

We can make it up again

And we don't care we just pretend

With our faces on the mend

And don't ask a lot

And you won't lose a lot

Don't ask for muchAnd I still miss you

Say I missed you too

Still I miss you

Say I missed me too

Still I missed you

Say I missed me tooWe want action and decision that we can't fake We got fire cracker wishes that we can makeWe can make it up again

We can make it up again

And we don't care we just pretend

With our faces on the mend

And don't ask a lot

And you won't lose a lot

Don't ask for muchOh

Do you miss me?

'Cause I miss you
