

# Old Soul (feat. Dave McCabe)

## Thea Gilmore

Well, Im looking for an old soul  
Where am I gonna go?  
Im looking for an old soul  
Does anybody know?  
I dont want the worldly wise  
I dont want a good disguise  
Just looking for an old soulAnd Im looking for a white light  
Where am I gonna go?  
And Im looking for a white light  
Does anybody know?  
Dont want the shooting starts  
Dont want the passing cars  
Just looking for a white lightCause when the days grow old  
And the nights get cold  
Ill need a young heart  
But an old soulAnd Im looking for the right song  
Where am I gonna go?  
Im looking for the right song  
Does anybody know?  
Dont want to hear the blues  
Dont want some wild chanteuse  
Just looking for the right songCause when the days grow old  
And the night gets cold  
Ill need a young heart  
But an old soulWhere am I gonna go?  
Im looking for an old soul  
Does anybody know?  
Its gotta be flesh and bone  
The sweetest idea of home  
Its gotta be an old soul  
Its gotta be an old soul  
Its gotta be an old soul
