

Schoolgirl

Kim Wilde

It's something else to see the way you're growing
From a sweet little baby to a grown up girl
And I pray though darlin' I've no way to knowing
That you'll discover a beautiful world As you skip down the street and hold your books so tightly
Tell me what are you learning in your ABC
Are you dreaming off all the many things you might be
You know that we're just waiting to see Schoolgirl, you're such an inspiration
Schoolgirl and you're as fresh as the breeze
You've got the whole world just waiting for you
You're really something, something to see It's easy to worry in a world of trouble
When there's nothing but bad news trying to bring you down
But life doesn't have to be an uphill struggle
There's still some wonderful things to be found Schoolgirl, you're such an inspiration
Schoolgirl and you're as fresh as the breeze
You've got the whole world just waiting for you
You're really something, something to see There is sadness and confusion in our hearts
And the world prepares to fight
As it tears itself apart, it isn't fair Schoolgirl, you're such an inspiration
Schoolgirl and you're as fresh as the breeze
You've got the whole world waiting for you
Girl, you're really something, something to see You're little schoolgirl
You're as fresh as the breeze
You've got the whole world waiting for you
You're really something, something to see Little schoolgirl, you're such an inspiration
Schoolgirl and you're as fresh as the breeze
You've got the whole world waiting for you
Girl, you're really something, something to see
