City Of Angels

The Generators

From the mountains to the sea
Walkin' in the suburban inner city
From those downtown city lights
To the uptown Hollywood Blvd. Nights
Diversity runs deep in the faces
Everybody in their own rat races
But you always know where you are
You gotta scorching in sunset
Over Santa Monica
City of angels
City of angels
Under the western sun
City of angels
City of angels
At the ocean front
City of angels
City of angels
Under the western sunDown in Soto
In east Los
To the ports of San Pedro
Angelinos know what it means
They got their own kind of culture
The heart of the city proudly beats
Another heat wave in the Valley
Another hypersuit freeway bank robbery
Tinsletown's got their head in the clouds
Everybody hurry home
Before the city burns itself downCity of angels
City of angels
Under the western sun
City of angels
City of angels
At the ocean front
City of angels
City of angels
Under the western sunAnother meltdown in LA town
Meltdown
Down on these busy streets
There's a city watching over meCity of angels

City of angels
Under the western sun
City of angels
City of angels
At the ocean front
City of angels
City of angels
Under the western sunYou are the only one!
