Cancer

Filter

I cross the oceans, I cross the seas
I cross the mountains like a new disease
I cross the borders, I cross the line
Never to see the light 'til the end of timeI've seen the canyons, I've seen the cities
I've seen the prisons that take such pity
When it comes to you, when it comes to me
It's just money that will set you freeHey my children
What seems important won't last forever
Hey my children
What seems important won't last foreverTake a look at the earth from a plane
You'll see the earth cut up and in pain
Take a look at L.A. from the sky
What you see should make you cryHey my children
What seems important won't last forever
Hey my children
What seems important won't last foreverI'm the scum of the earth
I'm the scum of the earth
I'm the scum of the earth
I'm the scum of the earthI'm the scum of the earth
I'm the scum of the earth
I'm the scum of the earth
I'm the scum of the earthI'm the scum of the earth
I am a cancer
I'm the scum of the earth
I am a cancerI'm the scum of the earth
I am a cancer
I'm the scum of the earth
I am a cancerI'm the scum of the earth
I am humanity
I'm the scum of the earth
I am humanityI'm the scum of the earth
I am humanity
I'm the scum of the earth
I am humanityHey my children
What seems important won't last forever
Hey my children
What seems important won't last foreverHey my children
What seems important won't last forever
Hey my children

What seems important won't last forever
