## In America

## **The Charlie Daniels Band**

Only in America, we're slaves to be free
Only in America, we kill the unborn to make ends meet
Only in America, sexuality is democracy
Only in America, we stamp our god, 'In God We Trust'

What is right or wrong?

I don't know who to believe in My soul sings a different song

In America

What is right or wrong?

I don't know who to believe in

My soul sings a different song

In America, in America, in America

Church bells ringin', pass the plate around

The choir is singin' as their leader falls to the ground

Please Mr. Prophet man tell me which way to go

I gave my last dollar, can I still come to your show

What is right or wrong?

I don't know who to believe in

My soul sings a different song

In America

What is right or wrong?

I don't know who to believe in

My soul sings a different song

In America, in America, in America

I said oh, I said oh, yeah

I am right and you are wrong

I am right and you are wrong

I am right and you are wrong

No one's right an' no one's wrong

In America, in America, in America

What is right or wrong?

I don't know who to believe in

My soul sings a different song

In America

What is right or wrong?

I don't know who to believe in

My soul sings a different song

In America, in America, in America

What is right for you and me? Yeah

## In America
